

## FUTURE PLAN OF ACTION

The Participants Agreed on the following Plan of Action

### September-November 2004

- Discuss draft Code of Practice with respective governments, the private sector, fishfarmers, other stakeholders in coordination with mangrove-aquaculture core experts (identified during the June 2003 Mangrove Workshop)
- Country Representatives collate inputs for submission to AQD as the coordinator for the development of the Regional Code of Practice

### December 2004

- Deadline of submission to AQD of inputs for the draft Code from country representatives and mangrove-aquaculture experts

### January-February 2005

- Consolidation of additional inputs

### March-May 2005

- Circulation of final draft Code of Practice for information by all country experts
- Printing of the Regional Code for dissemination to member countries
- Translation of the Regional Code into the national languages of the region
